PROFILE

I'm a Software Engineering Aspirant.

I have strong technical skills in web app development.

In my academic study, I have done MBA, specialised in Information Technology.

Recently I have done 5+ MERN project that. helped me to understand software fundamental very well. I'm open for the opportunity where i can serve my best and keep my learning forward.

WORK EXPERIENCE

Kiara Technologies, web developer

- Over the past year, I have gained extensive experience in working with ReactJS and Tailwind CSS.
 - In my role, I have successfully developed and implemented several projects using ReactJS as the front-end framework. I have a solid understanding of React's core concepts, such as components, props, state management, and lifecycle methods. I have utilized React's virtual DOM efficiently to optimize performance and improve user experience.
 - In addition to ReactJS, I have also become proficient in using Tailwind CSS for styling and UI development. Tailwind CSS's utility-first approach has allowed me to rapidly build and customize UI components, resulting in faster development cycles. I have utilized the comprehensive set of utility classes provided by Tailwind CSS to create responsive and visually appealing user interfaces.
 - Throughout my experience, I have also worked with various libraries and tools within the React ecosystem, such as Redux for state management, React Router for navigation, and Axios for handling API requests. I have applied my knowledge of these tools to build robust and scalable applications.
 - Furthermore, I have collaborated closely with designers, backend developers, and other stakeholders to ensure seamless integration and adherence to project requirements. I have also actively participated in code reviews, debugging, and troubleshooting to maintain code quality and resolve any issues that arise.
 - Overall, my one year experience with ReactS and Tailwind CSS has equipped me with a strong foundation in front-end development. I am confident in my ability to deliver high-quality projects and contribute effectively to any team.
-

EDUCATION

Bachelor of Arts, Swami Vivekanand Subharti University(Meerut)

MBA(Information Technology), Swami Vivekanand Subharti University(Meerut)

ENTREPRENEURIAL ENDEAVOURS

WoofPartner: A platform connecting pet parents to find partner for pets.
